Leanne Shea Langdown is a children's book author, success consultant, blogger and motivational speaker.

Her most notable work is the Cheer Chick Charlie children's book series. The aim of the series is to help children with their self-confidence, resilience, health and fitness, while providing entertainment and inspiration in the process. Through an engaging storyline and a delightful character the books have been written to inspire and encourage children to believe in their dreams.

Leanne's inspiration for Charlie came from her own daughter's desire to become a cheerleader. Together they started a school cheerleading squad and Charlie grew from the spirit of each and every one of their cheerleaders. It is Leanne's dream to help as many children as possible believe in themselves. Funnily enough, that's Cheer Chick Charlie's dream too!

Leanne's author talks take children on a journey through the creation of Cheer Chick Charlie, to a place of growth, inspiration, dreams and possibilities. These sessions are more than just author talks. They include motivation, self-belief, positivity and encouragement. Contact Leanne for more information ☺
